EV & BATTERY EXPO

FEBRUARY 2025

Welcome to the Electric Vehicle & Battery Expo 2025

In an era of environmental consciousness and technological advancement, the EV (Electric Vehicle) and Battery Expo emerges as the pivotal platform driving the transition towards sustainable mobility solutions. As the automotive industry undergoes a profound transformation, this Expo stands as an example of innovation, collaboration, and progress.

Our vision is to accelerate the adoption of electric vehicles and usher in a new era of clean, efficient, and accessible transportation. By convening industry leaders, innovators, policymakers, and enthusiasts, we aim to catalyse meaningful discussions, foster partnerships, and inspire actionable solutions toward a greener future.

The EV and Battery Expo 2025 to be held on 13, 14 & 15 February 2025 at the Chennai Trade Centre will showcase the latest advancements in electric vehicle technology, battery innovations, and associated infrastructure. Through exhibitions, presentations, and interactive experiences, we strive to empower, educate and mobilize stakeholders to embrace sustainable mobility solutions

Key Themes:

Innovation in Electric Vehicles:

Explore the latest developments in electric cars, bikes, buses, trucks, and beyond.

Advancements in Battery Technology:

Discover breakthroughs in lithium-ion batteries, solid-state batteries, energy storage solutions, and more.

Charging Infrastructure and Smart Grid Solutions:

Delve into the future of charging stations, fast chargers, wireless charging technologies, and grid integration.

Sustainable Mobility Ecosystem:

Learn about holistic approaches to sustainable transportation, including mobility-as-a-service (MaaS), shared mobility solutions, and urban planning initiatives

Invitation to Exhibit

Join us at the forefront of innovation in the electric vehicle (EV) and battery industry! The EV and Battery Expo 2025 is set to be the premier platform for companies to showcase their latest products, technologies, and services shaping the future of transportation.
